

ST. THOMAS AQUINAS REGIONAL CATHOLIC HIGH SCHOOL

ST. THOMAS AQUINAS PRESCRIPTION DRUG AND MEDICINE AUTHORIZATION

Prescription drugs and over the counter medication should, whenever possible, be dispensed by a parent or guardian. If a child is given a prescription or medicine to take 3 times daily, it is recommended to the parent that it be given to the child before he/she comes to school, after going home from school, and before bedtime.

Only when dispensing is required more often or with lunch should the school be involved with dispensing. Any prescription drugs must be labeled with the child's name, the Doctor that prescribed the drug, and in the original labeled container. Over the counter drugs must also be in the original container.

NO medication is allowed to be carried by the student in a backpack, purse, or lunch box. The only exception is an epi pen and Inhaler. A doctor's order and this form must be supplied in order for it to be carried by the student. The parent must complete this form in order for the office to administer any medication to a student. A log will be kept in the office with the time and date the medication was given to the student. All medications are kept in the office in a locked drawer.

The following information must be completed before medicine is given:

Student Name: _____ Date: _____

Prescribing Doctor: _____

Amount of dosage: _____ Time to be given: _____

Over the counter medication: _____

Amount of dosage: _____ Time to be given: _____

I hereby authorize Saint Thomas Aquinas to dispense medications as directed.
